

Army Safety Management Information System (ASMIS1)

- Tool developed for the Army
- Designed to be completed for all planned trips outside immediate local area when going on leave or liberty
- Will help plan a trip and ensure it has been planned sufficiently (time, rest stops, alternate drivers, weather)
- Designed to mitigate risks through knowledge and sharing
- Ongoing integration of Marine Corps data into system
- Tool is being used by Marines/Sailors and dependents

NOTE: Has been practiced in 'pen-in-ink' formats with great success by numerous Marine Corps commands.

ASMIS1

Status update

- Currently finalizing update
 - Marine Corps data
 - Capability to handle increased demand

Number of:		Users	18-25	Males	Females
Army	45,850	15,400	38,230	6,640	
Navy	708	143	593	106	
Air Force		26	1	24	1
Marines	103	20	91	10	
Coast Guard		34	3	32	2

- USMC assisted in funding update
- Will announce in ALMAR when update is completed
